Questionnaire completed by:

Mother  Father  both parents  other

if other – who?: \_\_\_\_\_

Is your child growing up with multiple languages? no  yes

if yes, which languages? \_\_\_\_\_

Version vom 11.08.2009

On the next page you will find a list of English and German words. Please place a mark beside all the words that you have often heard your child say. Be sure to mark the words in both English and in German. Be sure to only indicate words that your child uses him/herself and not those which he/she merely imitates or understands. Make sure to include those words that your child may not yet say perfectly, for example "nane" for "Banane" or "twee" for "tree". Should your child use a similar word with the same meaning to one of those listed here (e.g. "kitty" instead of "cat") then please write down the word your child uses.

Please remember: The vocabulary of two year olds varies a great deal. Therefore, it can be the case that your child may only speak a few of the following words. Certainly, your child may speak many words that do not appear here.

<b>Englisch</b>	<b>Deutsch</b>	<b>Englisch</b>	<b>Deutsch</b>
<input type="radio"/> hello	<input type="radio"/> <i>hallo</i>	<input type="radio"/> grandpa	<input type="radio"/> <i>Opa</i>
